PROJECTS

Summer Camp Website (The Starlet Camp)

- Build on Vite using HTML, CSS, Javascript, and Firebase for the backend
- The layouts and design are being implemented with CSS, with different UI principles in Mind
- Implemented Firebase to store user information after registering for the camp.
- I used Chrome Dev Tools to troubleshoot, problem-solve, and other AI to help debug and check errors

Manchester United Fan Base Wesbite

- Build on Vite using HTML, CSS, and Javascript
- I used Chrome Dev Tools to troubleshoot, problem-solve, and get UI components used on their site.
- Implemented CSS for the design and layouts, specifically using CSS Grid AND Flex and other different CSS properties and JavaScript for most of the interactions, overlays and array properties.

Trophy Case Website (Wayne State College IT Dept Trophy Collection)

- Build on Vite using HTML, CSS, and Javascript. About 45% are built with Javascript.
- The website uses simple UI for easy use, JavaScript for the hover effect on the image, or click gives you a side or rear view, and click for more info tells you a little bit about the Event.
- Built to virtualize the Trophies won by the IT department on campus.
